Rocky Mountain Chapter
The end-to-end reliability forum

7x24 Exchange Rocky Mountain Chapter is pleased to announce our spring program

"DC Systems"

The program on DC Systems will explore battery and flywheel options that can be utilized with UPS systems:

- "Valve Regulated Lead Acid (VRLA) vs. Flooded Batteries for UPS Applications" presented by Erik Jones of C & D Technologies
- "Applying VRLA Batteries in the 2010 Data Center" presented by Doug Dethmers of DEKA Batteries
- "Get the Lead Out: Sustainable Energy Storage for Power Quality/Reliability" presented by Keith Field of Pentadyne
- "Green Solutions with Flywheels in Lieu of Batteries" presented by Johnny Gonzales of Vycon

Beat the traffic and please join 7x24 for breakfast at the foot of the majestic Flatirons in Boulder.

Date: Tuesday, March 9, 2010

Registration & Breakfast: 7:15 AM – 8:00 AM

Program: 8:00 AM – 11:00 AM

LOCATION: Discovery Center
4001 Discovery Drive, Boulder, CO

Breakfast will be provided.

Please RSVP by March 5, 2010 to Tonya Neu by e-mail at tneu@rmhgroup.com or by phone (303) 312-4623.
